

Active Care & Nursing Ltd

Active Care & Nursing Ltd is a domiciliary care agency offering culturally specialised services to the local communities of Brent, Ealing and Harrow. Their service users are mainly elderly persons who require assistance with personal care and other domestic requirements. They started trading in March 2004 and now employ a total of 30 people. The aim is to double the size of the company in the next year.

Why Green Mark?

As an organisation committed to working with people, it is important for Active Care and Nursing to respect the environment and encourage staff to follow environmental policy, as well as take all necessary steps to ensure the organisation can contribute towards national environmental policy. The reason that they decided to apply for Green Mark was to take pride in their commitment to better the environment. This achievement will also boost staff morale and be a daily reminder to commit to their environmental policy.
