

## VASCROFT CONTRACTORS LTD

### About the Company

Vascroft Contractors Ltd was incorporated in 1977 and for the past 29 years has been actively involved in the construction and refurbishment of hotels and restaurants, always producing finishes of the highest standards. With a staff of 180, Vascroft's achievements include top hotels and developments in the West End. They also specialise in building luxurious homes in and around London.

The company is listed on the Approved list of Contractors working for Councils such as London Borough of Brent, Ealing, Harrow and Lambeth and Notting Hill Trust housing association. Vascroft owes its success and popularity to sheer dedication, enthusiasm and above all contract administration, which all come through excellent teamwork.

### Why Green Mark?

The Directors of the company have always been environmentally conscious and the recent government and general media awareness on environmental concerns has prompted Vascroft to meet their aims in a practical way. The company aims to be a leader in environmental good practice and Green Mark is a means of measuring their dedication and achievements on environmental issues. Vascroft has found the Green Mark system a practical and simple approach to begin dealing with environmental issues on a daily basis.

### Significant Changes

There are some significant changes in the organisation, including management commitment towards environmental issues, which has provided encouragement for staff to help the company operate more efficiently in areas such as resource use, waste production and energy consumption.

### Advantages of Green Mark

A high priority and the most significant advantage is that Green Mark has allowed them to state their genuine commitment to the environment. This will benefit Vascroft in tendering for new projects and demonstrating responsible business practices to current clients and other stakeholders.
